WHO WE ARE

- The Company was **founded in 2001**, mainly working in partnership with UK-based Systems Union plc as provider of financial and performance management solutions
- **Earlier 2009** , in order to deliver more flexible and dedicated services to SunSystems italian customers, Infor (formerly SU plc) favored moving of their Senior Staff to the local Partner **SOME**. Target was to establish the unique **Certified SunSystems Channel Partner** in Italy.
- Most consultants from SOME have been working with SunSystems since its first arrival on the Italian market; therefore, most of the actual customers basis has knowledge of our expertise and our services.
- SOME is still the only Infor Channel Partner in Italy for the SunSystems (Infor FMS) and Vision (Infor Q&A) solutions and has a close relationship with Infor in order to implement worldwide SunSystems projects.
- SOME can deliver projects from time&material to key-turn implementations basis. We cover Italian and abroad markets, with special focus on Mediterranean area.
- Our services are delivered in Italian, English and French languages;
- Application Maintenance is based on first line telephone\mail Help desk service.

- SOME srl is specialized on Financial solutions with a special focus on Infor Financial solution "SunSystems" and others collateral softwares (add-on).
- SOME has plus than 10 years experience in Italian and International SunSystems projects, with a deep knowledge on the following markets:
 - ENERGY - worldwide
 - HOSPITALITY – worldwide
 - FASHIOM
 - LOGISTIC & SHIPPING
- We mainly work on multisites projects, therefore typically dealing with:
 - Italian Branches of international companies
 - Local/Foreign Branches of Italian companies
- Our approach is the design of a Core structure to be “globally” implemented through local expertise when getting to fiscal, maintenance and assistance aspects.

- During a comprehensive onsite evaluation, SOME through his Professional Services works with the customer to identify its unique business and technical objectives.
